USEFUL INFORMATIONS ABOUT THE PICTURESQUE HOLIDAY RESORTS AND THE MAIN TOURISTIC CENTRES OF

LAKE COMO

HOLIDAY AND REST RESORTS.

COMO, the chief town of the district, near the international Gottardo road, is besides connected with Milan by railway (Ferrovie Nord F.N.M. and State railroad) and by a fast highway. Como is a town built in pre-roman time with several monuments of great artistic and historical interest. Among them it is well worth mentioning:

- the Cathedral, one of the finest Lombard churches, built by the Maestri Comacini. It was begun at the end of XVth century. The lovely facade is divided in three parts adorned with carving works by Rodari. Particularly interesting the three central and the two side doors, and the large dome by Juvara (XVIIIth century).

Inside, wonderful hanging pictures by Bernardino Luini and Gaudenzio Ferrari.

- Nearby there is the Broletto Hall, the ancient praetorium (XIIth century) with a bell-tower.

- S. Fedele's basilica (XIIIth century), with a portal remarkable for its singularity and its clumsy decorations with monsters and wine-twigs.

- S. Abbondio's basilica (XIth century) with very decorative windows.
